

full stack software engineer

# Filippo Scotto

 Livorno, Italy

 [filipscotto@gmail.com](mailto:filipscotto@gmail.com)

 <https://pippogit.github.io>

My name is **Filippo Scotto**, I am a full-stack software engineer who loves to work with modern web technologies such as **React/NextJS**, but I also have a solid academical background in **computer engineering**, **machine learning**, and **networking**.

## Skills: Programming Languages & Technologies

- **Frontend**
  - Javascript, TypeScript, HTML/CSS
  - React, NextJS, TailwindCSS, ChakraUI
  - Basic design knowledge: Figma, Photoshop, Illustrator
- **Backend**
  - PHP, Python, NodeJS, Java
  - Laravel, Flask, ExpressJS
  - GraphQL, REST
- **Low-Level**
  - C, C++
- **Machine Learning & Data Engineering**
  - Python libraries (Pandas, SciKit, PyTorch, Numpy), MATLAB

## Experiences

- 2022     **Food Delivery Platform - Full Stack Developer**  
Delivery Aggregator SRL  
Implemented a **food delivery platform**:
- ▶ **Front-end**: Typescript, NextJS, Jotai Atoms, and ChakraUI
  - ▶ **Back-end**: PHP, Laravel, GraphQL, and PostgreSQL with GIS extension
- 2021     **Business Management App - Software Developer**  
ITS Telecomunicazioni SRLs  
Designed and implemented a **business management** web application:
- ▶ **Front-end**: Javascript, React, MaterialUI
  - ▶ **Back-end**: Google Firebase
